61		Adit / Access Agreement	C. Levine	8/20/2010	House T& I	Who installed the adit? Who gave them permission to do so and was there an access agreement in place?	9; 34; 70
70		Mine Cleanups in General / Access Agreement/ Timeline	C. Levine	8/20/2010	House T& I	There seem to be lots of different players involved in these mine clean ups in addition to EPA such as the state, local governments and other federal agencies. How does EPA become the primary agency involved in the clean up and remediation activities? When would the state be the lead? Under what circumstances would another government agency be the primary involved in clean up and remediation activities? Who was the access agreement for the work at Gold King mine with? We would like a timeline of what happened leading up to the Aug 5th incident and what happened after including who was	

notified when.
